

Sales & Use Taxes: Why Outsource?

The advantages of having a single vendor calculate your taxes, file your tax forms, and make payments on your behalf

Wednesday, November 19, 2008

SPECIAL TIME: 1pm - 2pm EST

When it comes to managing sales and use taxes, most companies rely upon their ERP system or perhaps a more specialized tax engine. During this webinar, we will explore yet another possibility: automating a company's ENTIRE sales and use tax process, including:

- Tax calculation
- Forms completion
- Secure transfer of funds to state and local revenue departments

This webinar will take a closer look at the ADP Sales Tax Service and how it gives companies new and exciting options that they didn't have before. Various components of the service will be discussed, with particular emphasis on the business benefits of full automation.

During the final 10 minutes of this webinar, a live question-and-answer segment will take center stage, so that attendees go away with a complete understanding of available technology and the benefits that result from its application.

Who Should Attend

- VP/Director of Sales Tax
- CFO
- CIO
- Chief Compliance Officer

Featured Speakers

Tim Walsh

Senior Director, Product Management, ADP

Tim has an extensive background in sales and use tax automation and manages ADP's sale tax products including Taxware Enterprise, TaxSolver, and the Sales and Use Tax System. He has been with ADP for over 11 years and has worked in wide variety of roles in both sales and marketing, giving him unique insights into the Taxware line or products.

Matt Walsh

Director, Tax Research, ADP

Matthew manages ADP's sales tax research department, and is responsible for the industry-leading tax content that goes into ADP's sales and use tax products. He oversees 50 tax attorneys and researchers. In addition, he provides advice to clients on tax issues and internal tax matters.
