

## Sales & Use Tax Solutions for Companies with Less than 1000 Employees

Wed., March 4 | 12-1pm EST | Complimentary - No Fee to Attend | Earn CPE Credit

### About this Webinar

The current economy has driven state and local authorities to dramatically increase their focus on sales and use tax compliance. While businesses are already challenged to be more productive with fewer resources, this increased focus on tax compliance has forced organizations to improve efficiency and minimize liability through automation.

During this one-hour session, sales and use tax experts from ADP will navigate the landscape as it appears to midsize companies and present alternatives that automate the sales and use tax process with a scalable solution integrated directly with many ERP systems. ADP, which moves over \$500 billion in tax money with over 14 million transactions annually, can now move sales and use taxes to help businesses keep up-to-date with state and local tax law changes.

During the final 10 minutes of the broadcast, the panel will answer questions from the audience.

### Who Should Attend

- VP/Director of Sales Tax
- CFO
- CIO
- Chief Compliance Officer
