One Customer's Journey with ADP

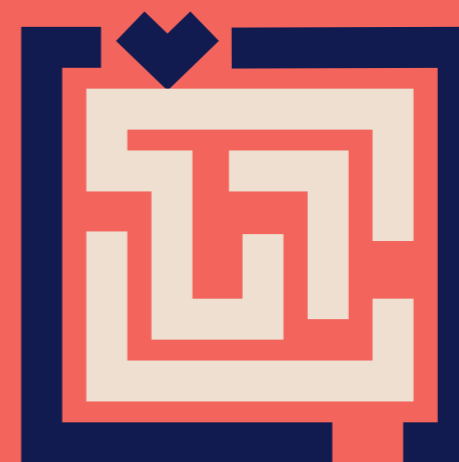

The customer:

Gerri chose ADP's payroll service for a 30+ person veterinary practice. But business growth led to more complex HR needs.

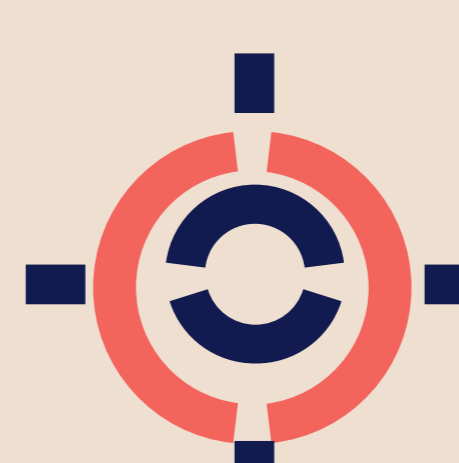

The challenge:

"I was inundated with HR questions, as well as health insurance and workers' comp issues. It was just too much for one person."

Working together today:

Gerri relies on ADP for workers' compensation, benefits and HR benchmarking. "Now I don't have to think about it — I just ask ADP and I get a quick answer."

The discovery:

She explored HR outsourcing options, including HR and benefits. "The more I looked into it, the more I realized we had to go in this direction."

"That's why I need ADP – because I don't know anything when it comes to all these other aspects of running a business. I have an accountant and I have ADP, basically. They've kept us in business." – Gerri Richards
