# HCM technology + human insight for transformational results

Cultivating a workforce that can truly transform municipal or educational organizations requires your attention to strategy, employee engagement and bringing new insights to the table.

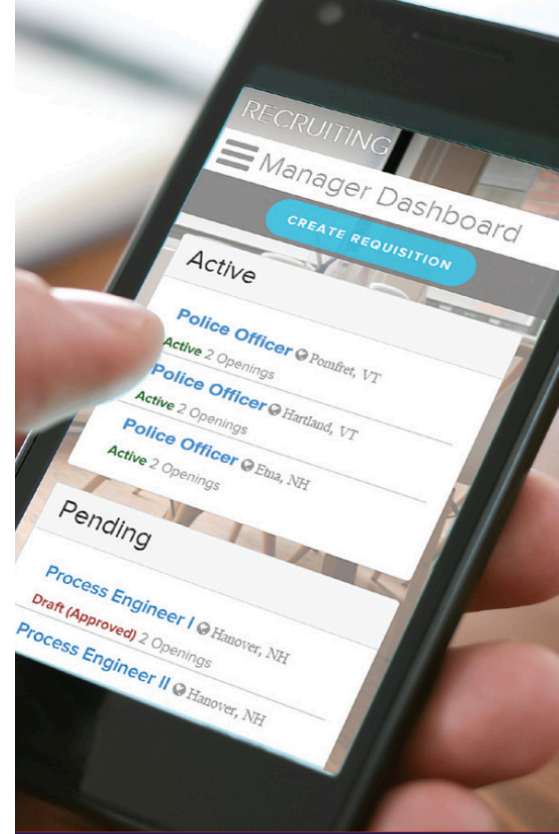

With **ADP Vantage HCM**<sup>®</sup>, you'll get flexible technology and expert guidance with global reach and local knowledge. Focus on your vision while getting the help you need to simplify administration, manage costs and minimize risk — which translates into big wins for you and your organization's employees.

## Recruiting

Elevate your employment brand and attract rock star candidates with an industry-leading mobile and interactive hiring process across all social platforms. Equip hiring managers with compliance support and intuitive dashboards that provide visibility on progress and automate processes for speed-to-hire.

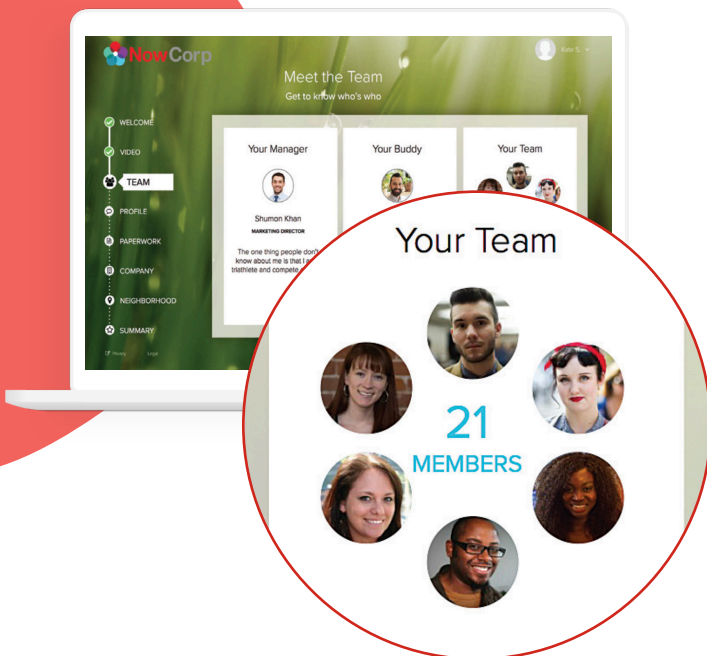

## Onboarding

Ensure your new employees get a fast start. Share your one-of-a-kind culture with your new hires before their first day to help build connections with their team and their new workplace. Simplify the paperwork process to reduce risk, and enrich the onboarding experience for your new employees, their manager and your HR staff.

Partnering with ADP provided us a platform that leverages technology in a very simple and modern way, helping our HR business partners to focus on strategic priorities and move the company forward.

Compensation and HR Systems,  
Follett

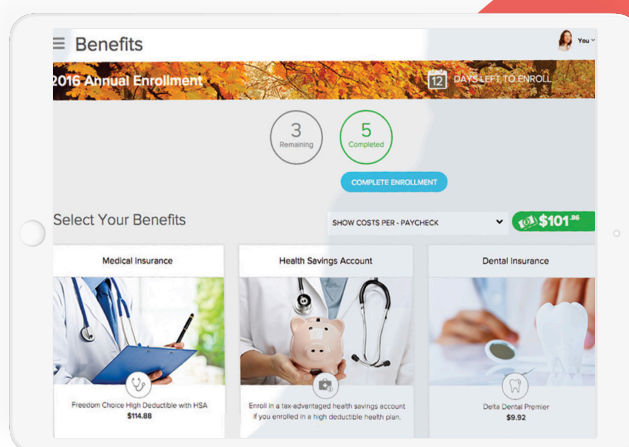

The major advantage of ADP is that because it's a fully integrated solution, it has helped us to streamline processes, eliminate all the paper and waste, and we now have a very coherent package that manages our payroll and interfaces with our HR systems. And those HR systems then interface with all of our insurance carriers, so I know we're properly managing our staff and that we're very efficient in the way we operate.
