

ADP SmartCompliance[®] Health Compliance: State Employer Reporting

Employers are not only challenged with ACA IRS reporting, but also an additional layer of complexity with state employer reporting. Employers can meet both IRS and state reporting needs efficiently, leveraging data and a single approval process to meet IRS, California, New Jersey, Rhode Island and Washington DC requirements at once. With one clear process, employers know what states, formats and deadlines are required each year regardless of the different deadlines, formats and data required. ADP can assist you with both your state reporting and IRS requirement proactively, seamlessly and efficiently throughout the year.

[State employer reporting] is done for us so we do not have to worry about tracking and remembering when and what to report. Integration is also a huge help so we do not have to manually enter or move data from benefits to Health Compliance.

Audrey Stepp, Senior Director, HR Operations, Mercy Housing

ADP Health Compliance helps with our state reporting responsibilities. They keep us on track with everything compliance related.

Melissa Simon, Benefits Manager, Amerit Fleet Solutions

My year end reporting has never been smoother than it has been after switching [to ADP Health Compliance]. They took care of everything for me and all I had to do was confirm that the information looked correct and click approve. They mailed all of my forms for me which saved countless hours.

Kailey Jones, Benefits Administrator, Yoke's Foods

State reporting by ADP has really handled the job for me. It would be difficult to keep track of all the state requirements, but ADP has handled that perfectly.

Kim Rumbaugh, Corporate HR Manager, Alamo Group

Real clients. Real challenges. Real solutions.
