

Process payroll with ease with ADP Workforce Now®

Help your HR team gain productivity and peace of mind by processing payroll with ADP Workforce Now. It's quick, easy and automated, helping to reduce errors and manual processes. Hear from real clients about their experience using ADP's payroll solution:

We chose ADP because of their solid reputation as a payroll provider, the ease of use with the payroll module and their ability to meet a time constraint we had in implementation. Our implementation of the payroll module went very smoothly with our implementation specialist leading us all the way to our first payroll, which was submitted on time with no errors. ADP helps us solve our payroll problems by providing the tools we need to process timely and accurate payroll. We receive great support if we ever have questions on processing anything, which eases our minds when we run across something new. We've experienced time savings and excellent support with regard to any payroll compliance issues as we are a multi-state employer. I would recommend ADP based on our excellent experience in working with them. The ease of use, service and ability to produce accurate and timely payroll is unprecedented.

Sarah Garcia, director, HR, DoubleDown Interactive

When I first started processing payrolls for Margaritaville, it was about a three-day process because of the number of timesheets that we run and the complexities of our departments. We had paper timesheets on clipboards throughout the venue — it was not efficient or conducive to our needs. Once we implemented ADP, my payroll processing time decreased from those three days to about half a day. With all the different responsibilities that I have, that translates to a big time savings.

Hannah Hill, finance manager, Margaritaville Resorts

I wanted the ability to process payroll whether I was at the office, at home or on vacation. And I didn't want to spend a lot of time on payroll so that I could have time to work toward other strategic goals and missions of the credit union. ADP has helped us streamline the payroll process — it's now much easier and more efficient. I can log on to the website from anywhere and process payroll in 45 minutes to an hour. Having the ability to do this was my primary decision for transitioning to ADP.

Tameka Brown Murphy, VPHR, InFirst Federal Credit Union

When it comes to payroll and HR challenges, I really haven't experienced any problems, and the reason for that is because ADP does it for me. ADP takes in my numbers, so I know my payroll is right. I do not love payroll and HR — that's not what I want to do. And because of that, I turned to ADP to do it for me so that I can do the things that I do want to do, and I have a level of confidence that they're going to get done right.

Jose Mercado, president, Thunderbolt Logistics

Real clients. Real challenges. Real solutions.
