

We've got the competition beat

When it comes to human capital management, having the right partner makes all the difference! At ADP®, we pride ourselves in offering expertise and dedicated service as well as robust technology and user-friendly tools so you can effectively manage your workforce. See how we measure up to the competition:

I was not a fan of **UltiPro** at all. It was not as user friendly as ADP. ADP is all inclusive for employee data, so we can handle 175 employees with just two HR employees. ADP makes it very easy to obtain and track HR, benefits, time and attendance and time-off data.

Brandy Secrist, accountant, Orthopedic Association of SW Ohio

The ADP implementation was much easier and the support staff much more helpful than **Paycor**. ADP is more user friendly especially for our type of business where employees frequently have multiple rates of pay and work out of multiple locations. It is much easier to find the reports I need in ADP as well. I also like being able to combine several batches of payroll into one pay run, which is a very convenient feature.

Stephanie Wright, office manager, Health and Safety Sciences, LLC

We moved to ADP in 2009 from **Paychex's** old DOS system and right away we noticed that it was night and day with performance and support and we continue to see time savings and cost savings.

Kerri Fama, director of human resources, Ironwood Physicians, PC

ADP allows us to easily track all of our employees' hours, wages, benefits costs and 401(k) contributions. The implementation was very easy, and the team was phenomenal to work with. ADP is so much better than our prior vendor because any time I have had an issue or question, I can easily speak to someone to resolve it. ADP has been instrumental in helping us stay up to date with the many Cares Act changes that have affected payroll and time and attendance.

Debbie Royse, accountant, Eddy's Insurance Group

ADP has been exactly what our company has been missing. Our previous payroll processor had a lot of issues that were never resolved with zero customer service. We couldn't be happier to have a partner like ADP.

Eric Smothers, payroll manager, Stars and Strikes LLC

ADP is more user friendly than **Paylocity** with better features and more responsive customer support. We also get ADP updates and information through The Bridge and Eye on Washington.

Rosa Cantrell, HR and payroll manager, Newnan Utilities

ADP has a sleek and efficient platform interface on both desktop and mobile. I think in all aspects, ADP is leading the payroll and talent industry in the right direction. The switch from **Paychex** to ADP was well worth it!

Elle Esparza, director of community engagement, Apache Service and Supply Co.

We migrated last year to another vendor and wound up migrating back to ADP. A lot of things that we had taken for granted didn't work with the other vendor. ADP assigned us an excellent team to migrate back and now our platform is better than ever!"

Annette Barnes, human resource director, Mark Andy, Inc.

We changed to ADP from another HRIS system and it was one of the best decisions we have made! It is extremely user friendly, has excellent customer support and allows us to manage our employees more effectively both in-person and remotely"

Connie Goodnight, HR director, Neighbors and Associates
