

# Here for you, through it all

Unsteady times call for the steadiest HR and payroll partner. In over 70 years, we've never wavered in helping accounting professionals & their clients adapt to changing regulations.

But don't just take our word for it — hear what accountants have to say about how we've helped them navigate the Paycheck Protection Program (PPP) and other COVID-19 legislation:

Using **Accountant Connect**, we were able to proactively pull CARES Loan Report Packages for 170 of our ADP payroll clients in an hour and send them out along with appropriate guidance. More than half of those clients ended up applying for a PPP loan, and 100% of them successfully secured funding quickly. None of that would have been possible if it weren't for ADP's lightning quick response to the COVID-19 crisis.

**Matt Soderman**, CPA, Client Accounting Services Manager, Baker Tilly

I cannot overstate how indispensable ADP has been during this crisis. The tools ADP has been providing to support our clients with PPP loan applications and now to support us in calculating the amount to be forgiven has easily saved us hundreds of man hours with manual calculations and reports. We are even offering discounted services to new prospects using ADP because we already know that our job will immediately be easier.

**Sean Duncan**, CPA, President, SMD Consulting & Accounting, LLC

ADP was very fast in responding to all the COVID-19 tax code changes. During an already busy tax season, our firm was able to quickly pull the reports we needed in Accountant Connect to help our clients apply for PPP loans and continue strategizing on helping them through these difficult times.

**Christina L. Minton**, CPA, CGMA, Owner, Minton CPAs & Associates, LLC

ADP's reporting tools have been wonderful in helping our clients apply for their PPP and their EIDL loans. There are a few other payroll programs where the reporting tools were not so great, and we ended up having to pull some manual data. But ADP made sure that the reports required for those loans were able to be pulled easily.

**Sharrin Fuller**, CEO, A Simple Office Solution

I love how ADP is always creating & providing timely content for accountants to make it easier to advise our clients. One of my new favorites is the client letter templates they provide through Accountant Connect, which probably saved me just as much time as their PPP reports.

**Matthew Fulton**, Founder & CTO, Parkway Business Solutions

All of ADP's various resources for COVID-19 and the new tax changes have been unbelievably helpful for our Accounting Practice. ADP has saved us countless hours of research and provides customized reports for our clients PPP loan application, and even more importantly, PPP loan forgiveness. Honestly do not know how we could have navigated these uncertain and constantly changing times without their support.

**Nick Boscia**, CPA, Boscia & Boscia PC
