ADP SmartCompliance® Health Compliance: Integration

Established, automated and recurring integration from any Payroll, HR or Benefits system not only addresses integration at the point of Implementation, but also provides a peace of mind regarding your ACA compliance status throughout the year. Rest easy knowing that ADP's dedicated Health Care Reform team is continually reviewing and streamlining your data feeds so that your results are near real-time throughout the year. Automation enables an effortless client experience by allowing clients to decide what items do not require further review, what items conform with an expected result, and highlight what truly requires additional review into data accuracy and timeliness.

The ADP system and file feed from my payroll system to their system works like a charm. ADP has all the information they need to do our calculations. If something doesn't look correct, we meet monthly to go over it and get it fixed ASAP.

Chippie Donelan, Compensation and Benefits Manager, AVX Corporation

[We]..really don't have a way to gather this data from any other source. [I]..can't imagine how we would manage without ADP.

Sheri Brown, Manager, Human Resources, Deaconess Health System

The streamlining of data into the ACA compliance software has saved countless hours of man time in manually entering in individuals data. There is no need for any manual data entry with this software, it simply does it for me!

Kailey Jones, Benefits Administrator, Yoke's Foods

[Benefits we see from ADP Health Compliance include]..the data transferring from one system to the next instead of having to upload files is a lot of time-saving. Not having to [create] a manual feed of new hires, status changes and terminations is also a huge time saver.

Carrie Quirarte, Senior Benefits Administrator, Americo

Trying to pull HR, Payroll, Benefits, leaves of absence & multi-employer/union data together at year-end to accomplish reporting would be a challenging task. It's extremely valuable to have ADP pulling this data each day/week/month and building each employee's 1095-C as the year progresses.

Aileen Mastin, Sun Chemical Corporation

Real clients. Real challenges. Real solutions.
