

# Turn to ADP®'s knowledge and experience

While workforce regulations are complicated and change quickly, best practices and enterprise transformation can take years to evolve. The good news is, there's no need to go it alone. Large organizations of every type put their trust in ADP's decades of experience, proven methodologies and expert specialists. From driving initiatives to deploying technology, providing support and offering insight, discover how organizations like yours have benefited from their ADP relationship.

We are able to customize and move forward with new trends and needs as they arise. ADP is always there for us.

**Randall Shoemaker**, HRIS Analyst, RadNet Inc.

ADP wants us to succeed. I know if my contact can't get me an answer or solution they will connect with others to find that solution. We are on the same team, and that is a comfort. I know I can rely on ADP.

**Lydia Chodnicki**, director of payroll, Education Affiliates

ADP offers advice and knowledge that we may not have realized, and we trust them because of the resources they provide as well as their guidance and patience.

**Kaitlyn Morris**, payroll associate, Aldi

We have benefited greatly from the visibility to the resources available to us in ADP and the continuous insight into what we need to be extra aware of in payroll and HR regarding legislature and laws. This enhancement has been a huge plus for us to help keep us informed and up to date on all of the latest information.

**Brandi Daugherty**, payroll specialist, DRS Marlo Coil

Throughout the years, ADP has become more of a true partner as opposed to merely a software vendor. They truly are my "backup." The support that we're given helps us run the business, from the user experience for our employees to a reporting and compliance standpoint for the company.

**Jaime Blankenship**, HRIS administrator, Commonwealth Care of Roanoke
