# Increase workforce productivity with ADP® Mobile

**Give valuable time back to your workforce and HR team with the help of ADP Mobile. This powerful self-service tool can help empower and equip employees with the information they need, any time and from anywhere.**

**But don't take our word for it — see what our clients have to say:**

The ease of use of ADP Mobile is great. Being in so many locations, it keeps our employees connected to HR, payroll and their own management when they're unable to be in the office. It puts self-service at their fingertips!

**Shon Richardson,** payroll coordinator, Helena Agri-Enterprises

I love that you can do things on the go with ADP Mobile!

**Stephanie Vanden Avond,** manager of benefits, compensation and HRIS, Prevea Health

With ADP Mobile, employees have access to and can update their information, which gives me more free time.

**Misty Jorgensen,** payroll clerk, Noll NorWesCo

With ADP Mobile, we can have access to our account on demand! It gives the power back to the employees so that they can make changes to their information without having to rely on HR. This gives HR valuable time back so that they can work on more important things.

**Zee Najarian,** payroll manager, The Wonderful Company

ADP Mobile allows for more productivity for payroll processing. Managers can approve timecards and employees can punch in and out from their phones. The employees are also able to review PTO accruals and know how many hours have been worked without using a physical time clock. ADP Mobile is a great tool.

**Sharon Dawson,** senior payroll administrator, Sims Metal Management

ADP Mobile eliminates the need to have a computer and keeps information at our employees' fingertips.

**Karen Posso,** payroll manager, Prysmian Group

With ADP Mobile, it's quick and easy to use and to see my information. It lets employees see their pay and deductions without having to take time from work to stop and talk to HR.

**Christine Nygaard,** HRIS systems analyst, Universal Forest Products

ADP Mobile provides a great way for our employees to update their own personal payroll information online, and there's no more paper! Address changes, emergency contacts and direct-deposit information is fed directly into [the system].

**Laura Winters,** HRIS project lead, The Hebrew Home at Riverdale
