The benefit of our Vantage setup is that I can do nearly everything I would be doing in my office, but remotely. I haven't missed a beat being able to connect to my ADP systems to monitor and assist our HR professionals to do their daily tasks, as well as implement updates and projects, all remotely.

Andy McNutt, HRIS analyst, EPL

I've attended several of the webinars hosted by ADP and shared the documentation with leaders in my company. I've looked through the Return to Workplace section under HR and I love that you can send employees surveys, pull metrics, and contact trace all in one place.

Christine Clark, senior payroll manager, Scientific Games Corporation

ADP's solutions allow us to track employees who are out with COVID, getting vaccinated, caring for others with COVID or needing to quarantine, so we can get the federal tax dollars as well as contact tracing.

Kathy Brubaker, payroll manager, Hubbard Broadcasting Inc

Using ADP's Reporting tool helped with faster generations of reports for our annual and quarterly reporting needs.

Pauleen Paygane, payroll/HRIS administrator, The Watches of Switzerland

ADP's Eye on Washington posts that were emailed to me directly were a lifesaver. With so many constant changes I never knew when deadlines might change, so it was nice to have them sent to me.
