

# A mother and son business with no time for payroll mistakes

Ryland Wilson and his family have always been big fans of Uncle Dave's Kettle Korn in the Williamsburg, VA, outlet mall. When they heard the business was being franchised, they knew they wanted to be a part of it. First, Ryland's aunt and uncle bought a franchise. Then — despite never having owned a business — Ryland and his mother bought one. But neither he nor his mom quit their full-time jobs, leaving little time to learn the ins and outs of payroll.

## ADP is always available

As first-time business owners, we didn't know anything about payroll. Once we set up an account with our bank, they suggested we talk with an ADP representative. We looked at everything and realized this was the right choice for us.

With ADP's RUN platform for payroll, we spend less than an hour every week running payroll. I put everything in and it calculates the payroll and tells me gross and net. And the best part is that I can always get help. Because of my other job — I work for the local gas company — I'm usually doing payroll late at night. Or sometimes I'll get off work and have a question. I can call in, and they're always available. There's never a time we can't call and get a question answered.

## Doing it all through ADP made sense

We have a SIMPLE IRA with ADP's retirement services, because even though our employees are part time, we appreciate their work, and we eventually want them to have that benefit. We also decided that ADP's Pay-by-Pay<sup>®</sup> premium payment program for workman's' compensation and the workers' comp insurance, through ADP's affiliate Automatic Data Processing Insurance Agency, Inc. (ADPIA<sup>®</sup>), was a good fit. It's something we needed to protect ourselves and our employees and doing it all through ADP made sense.

I would definitely recommend ADP's services. It's better to do payroll right the first time, and ADP has saved us a lot of time, money and headaches. There are a lot of rules and regulations when you're starting a small business, and ADP makes the whole process easier.
