Date: May 27th, 2019
From: ADP Global Security Organization
Subject: Phishing Campaign: “SECURITY GENERATED MESSAGE”

ADP has received reports regarding fraudulent emails appearing to come from ADP with the subject line “SECURITY GENERATED MESSAGE”. The sender instructs the recipient to click on a link and then run a malicious program.

These emails do not originate from ADP and our analysis has revealed that they may contain malicious content. We’re working with our fraud prevention team and anti-phishing vendor to address this incident. Please see the example below which may vary in content and sender.

Subject: SECURITY GENERATED MESSAGE

Your Payroll security... Anytime, Anywhere!

Hello [redacted],

Giact have notified us on incorrect information supplied for one of your employees.
As we all know, ADP® have partnered with GIACT.COM for enhanced security which includes verification of employee information along side direct deposit details.

Following the daily reports from Giact, one or more on your employee details tends to be invalid. We strictly advise you consider correcting this issue avoid more restrictions on your account as the concerned employee will not be paid till genuine information have been supplied.

Sign in to ADP® RunPayroll and follow the yellow prompt on top of your dashboard.

For more information and questions on how GIACT works, visit GIACT.COM

Thank you,

Fargus Brock

How to Report a Phishing Email

Be alert for this fraudulent email and follow the instructions below if you receive any suspicious email.

- **Do not click on any links or open any attachments** within the message.
- Forward the email as an attachment to abuse@adp.com, then delete it.
- If you clicked any link or opened an attachment in the email, immediately contact your IT support.

The ADP Global Security Organization continues to actively monitor this situation. Clients are encouraged to visit our website at www.adp.com/trust to learn more about how ADP protects data, and how clients can help protect themselves. Protecting our clients and their data from malicious activity is a top priority for ADP.
