

Case Study: Lessons learned during one company's transition from a third party provider to ADP

The Advantages of Outsourcing to ADP's Payroll Tax Service

Wed., Feb. 18 | 2-3pm EST | Complimentary - No Fee to Attend

Right now, organizations are focused on making smarter business decisions in order to position themselves for tomorrow's economic recovery. Some companies are already planning for future growth by innovating and improving their business efficiencies. Are you one of those companies?

In this session, learn from organizations who have discovered the business benefits of outsourcing. You will take away from this webinar key lessons learned on transitioning from one third party payroll tax service to [ADP's payroll tax service](#). We will also discuss the behind-the-scenes technology for connecting an in-house payroll system (such as UltiPro™) to ADP's Tax Service.

During this one hour webinar, you will hear:
