Done

Enter social security number without dashes, and then click

List of pay statements posted to IPAY. The information shown is the fields that an employee would need to register.

The screenshot shows the iPayStatements Administrative Interface in Microsoft Internet Explorer. The browser address bar displays <https://ipayadmin.adp.com/index.jsf>. The user is logged in as TUserdemo@PCSDEMO on 06/24/2005 at 07:23:39 AM. The interface includes sections for Manage Employee Earning Statements, Manage Company Options, Security, and Support Documents. A Resource Center section is highlighted with a blue circle, containing links for An Employee Needs Help, What's New in iPay Admin?, and iPayStatements Web Site. A yellow callout box points to the Resource Center with the text: "Links for assisting employees and troubleshooting problems are provided here." A footer note states: "Support documents are displayed in PDF format and require the Adobe® Reader®. Click the icon below to install the latest version." with a "Get Adobe Reader" button.

This screenshot shows the same iPayStatements Administrative Interface, but with a pop-up window titled "An Employee Needs Help" from <https://support.adp.com>. The pop-up window contains the following text: "Click one of the categories below to display a list of associated issues:" followed by a list of categories: [Logging In and Registering](#), [Statements](#), [Passwords and Security](#), [E-mail and Notification](#), and [Paper Options](#). Below the categories, the "Logging In and Registering" section is expanded. The background interface remains visible, showing the same navigation and footer information as the first screenshot.
